Education

B.Tech — Computer Science (AI & ML)

2025 – 2029

Rishihood University (Newton School of Technology)

CGPA: 8.01

- Coursework: Product Thinking, Design Thinking, Data Structures, AI/ML Fundamentals, Statistics

Position of Responsibility

Arthakram, Product & Consulting Club

- Presented Minimalist & Blinkit teardowns; applied competitive analysis and PM prioritization frameworks to real product decisions.

Projects & Product Research

Startup-Info — Startup Schemes Discovery Platform | startup-info-gamma.vercel.app

2026

- Identified user problem: first-time Indian founders unable to discover 50+ central/state schemes; shipped live platform adopted by 15 E-Cell members with a 5-question eligibility checker, reducing decision friction for non-technical founders.
- Owned full product lifecycle — problem definition, user journey mapping, feature prioritization, and end-to-end deployment on Vercel using JavaScript and Tailwind CSS.

Company Breakdown — Minimalist (D2C Skincare) | notion.so/Minimalist-Company-Breakdown

Feb 2026

- Analyzed growth to Rs. 514.8 Cr FY25 (+48% YoY) and Rs. 2,955 Cr HUL acquisition; mapped LTV:CAC (D2C: 11.7x vs. Modern Trade: 2.5x); identified dermatologist referral as highest-ROI underinvested acquisition channel.
- Prioritized strategic roadmap via urgency-impact framework; flagged 12% SKU stockout as pre-scaling blocker; defined FY26 KPIs across 3 scenario-based growth trajectories.

Market Research — India UCO Biofuel Opportunity | notion.so/UCO-Market-Research

Apr 2026

- Mapped USD 356.7M market; identified 60–70% informal leakage of 3.4M tonnes annual UCO; unit economics: OMC Rs. 85–105/litre, feedstock Rs. 45–65/litre, gross margin Rs. 10–25/litre.
- Mapped RUCO mandate and National Biofuels Policy tailwinds; prioritized Maharashtra, Delhi NCR, Tamil Nadu as Tier 1 markets; framed 3-scenario strategic outlook through 2030.

Skills & Tools

Product: User Research, Product Strategy, Roadmapping, PRD Writing, A/B Testing, KPI Tracking, OKRs, GTM Strategy

Tools: Figma, Notion, Google Analytics, Canva, Git/GitHub, Vercel **Tech:** JavaScript, Python, Supabase, Tailwind CSS **Soft**

Skills: Stakeholder Communication, Cross-functional Collaboration, Strategic Thinking, Agile/Scrum

Leadership & Achievements

- **3rd Place, Global Hackathon** — Built ECG signal intelligence pipeline detecting R-peaks, flagging Atrial Fibrillation, and extracting HRV-based stress markers; clinical-grade signal processing in 48 hrs.
- **Team Lead, GryffinsDev** — Smart India Hackathon 2025; led cross-functional team through national-level government hackathon.
- **Finalist** — Mind the Product & Productathon, E'Summit IIT Roorkee (2026); 24-hr design sprint vs. top university teams.
- **Top 5 of 300 Teams** — Investopedia, E'Summit IIT Roorkee (2026); advanced to top 40 finalists nationally.
- **6+ National Challenges** — IIT Kanpur, IIT Roorkee, IIT Delhi (2025–26); product, marketing, case study, and investor simulation tracks.
